

## Position Description

Title:                               Apprentice & Journeyman Instrumentation Technicians  
Reporting To:                   Instrumentation Manager  
Division:                         Electric & Controls  
Location:                         Various

Tarpon is currently searching for Instrumentation Technicians with oil and gas experience to work from our various locations. These individuals must have a continual focus on safety, cost control and client satisfaction when performing the duties of this position. Instrumentation Technicians must have experience producing quality work with attention to detail to meet/exceed client needs.

### Skills, Abilities and Educational Background

- Journeyman Instrumentation Technician or 1st or 2nd, 3rd or 4th year apprentice.
- Previous oil and gas experience is preferred.
- Proven ability to work independently.
- Excellent communications skills.
- Must be able to work well in a team environment.
- Must produce quality work with good attention to detail/accuracy to meet/exceed client needs.
- Must be able to service deadlines and time parameters with a continual focus on safety, cost and ultimate client satisfaction.
- Must have a basic understanding of P&IDs.
- Must have knowledge of Bailey Net 90 DCS and Allen Bradley PLCs.

### Compensation

Tarpon offers a very attractive compensation package that includes a competitive salary, a full benefits plan that is effective on the first day of employment and a matching RRSP program. Tarpon has an open and team-oriented culture that focuses on communication, integrity, innovation and respect. Employees take pride in their work and are the single most important reason why Tarpon offers superior customer service.
