

Position Description

Title: Apprentice & Journeyman Instrumentation Technicians
Reporting To: Instrumentation Manager
Division: Electric & Controls
Location: Various

Tarpon is currently searching for Instrument Technicians with oil and gas experience to work from our various locations. These individuals must have a continual focus on safety, cost control and customer satisfaction when performing the duties of this position. Instrument Technicians have experience producing quality work with attention to detail to meet/exceed customer needs.

Skills, Abilities and Educational Background

- Journeyman Instrument Technician or 1st or 2nd, 3rd or 4th year apprentice.
- Previous oil and gas experience is preferred.
- Proven ability to work independently.
- Excellent communications skills.
- Must be able to work well in a team environment.
- Must produce quality work with good attention to detail/accuracy to meet/exceed customer needs.
- Must be able to service deadlines and time parameters with a continual focus on safety, cost and ultimate client satisfaction.
- Must have a basic understanding of P&ID's.
- Must have knowledge of Bailey Net 90 DCS; knowledge of Allen Bradley PLCs.

Must have own transportation as location is not accessible with public transportation.

Compensation

Tarpon offers a very attractive compensation package that includes a competitive salary and a full benefits plan that is effective on the first day of employment. Tarpon has an open and team-oriented culture that focuses on communication, integrity, innovation and respect. Employees take pride in their work and are the single most important reason why Tarpon offers superior customer service.
