

Position Description

Title: Combustion Technician
Reporting To: Combustion Services Manager
Division: Electric & Controls
Location: Vernal, UT

Tarpon is searching for a Combustion Technician to join our Combustion Services team in Vernal, UT. The Combustion Technician is primarily responsible to provide analytical combustion knowledge to add to our Combustion and Burner development efforts. The ideal candidate has been exposed to natural draft combustion product experience and environmental emissions.

Duties and Responsibilities

- Communicates with various branches regarding the submission of field reports and combustion services.
- Prepares formal combustion reports for clients and internal use.
- Manages the quality control concerning the field reports and the Formal Combustion Reports.
- Manages the Combustion Report Database and tracks the report submissions.
- Consults to Tarpon's branches regarding the field codes and environmental emissions.
- Reports to the Combustion Services Manager regarding combustion service performance for each branch.
- Recommends improvements and upgrades regarding the combustion equipment and service.
- Performs a variety of business administration duties.
- Assists with research and development projects.
- Complies with standards and procedures of Tarpon's health and safety manual and Occupational Health and Safety regulations.

Skills, Abilities and Educational Background

- Preference given to those with related post secondary education.
- Strong understanding of the practical and theoretical concepts of combustion.
- Strong knowledge of applicable codes and regulations.
- Knowledge of environmental regulations (ability to understand EPA standards).
- Must be familiar with field combustion equipment and its uses.
- Must be familiar with combustion services in the gas industry.
- Preference given to those with environmental experience.
- Excellent communication and computer skills are a must.
- Possess a high degree of initiative, creativity, communication skills, self-supervision and respect for safety requirements.
- Must be a team player and work closely with maintenance, production, engineering and outside services.
- Must have a flexible work schedule – shift work, overtime and weekends and schedule changes are routine and required aspects of this position.

Special Conditions of Employment

- Must possess a valid US Driver's License.
- Must be willing to submit to pre-employment, random and for-cause drug testing, as well as any other drug testing required by our clients and statutory regulations.

Position Description

Compensation

Tarpon offers a very attractive compensation package that includes a competitive salary and a benefit plan that is effective on the first day of the month following 90 days of employment. Tarpon has an open and team-oriented culture that focuses on communication, integrity, innovation and respect. Employees take pride in their work and are the single most important reason why Tarpon offers superior customer service.
